

eduroam configuration in Windows

Automatic configuration

Installation steps:

- Go to [VU eduroam Configuration Assistant Tool page](#);
- Select an installer for MS Windows 8, 8.1 or 10
- Save it in your hard drive and/or run installation process;
- In "Username" field provide your VU e-mail address;
- Enter your "Password";
- Continue and finish the installation;
- In Wi-Fi network list select "eduroam" and connect to it.
